# Northumbria University Welcome Message

**Professor Andy Long**  
Vice-Chancellor  
Northumbria University, UK

Thank you for considering Northumbria University as you take the next step in choosing where to pursue your Degree.

We are delighted to share that Northumbria University has been named Modern University of the Year 2025 by The Times and The Sunday Times<sup>1</sup>. This prestigious recognition highlights our excellence in research quality, rising student satisfaction, and continued progress in university rankings.

In the Good University Guide 2025<sup>1</sup>, Northumbria University is ranked 43<sup>rd</sup> overall—an impressive six-place improvement from last year. The guide's editors described Northumbria University as “a leading light among the United Kingdom's (UK) modern universities.”

Our achievements extend further, with the Daily Mail University Guide 2024<sup>2</sup> naming Northumbria University Research University of the Year 2024. This honour reflects our outstanding research performance and commitment to academic excellence.

As a truly global institution, Northumbria University welcomes over 36,000 students from 146 countries and regions. With more than 25 years of experience working with international education partners, we have built strong connections across the globe, including in China, Europe, Hong Kong, Indonesia, Malaysia, North America, Singapore, and Sri Lanka.

In Singapore, we are proud to partner with Kaplan Higher Education Academy to offer you the opportunity to earn a Northumbria University Degree. We wish you great success in your studies and look forward to supporting you throughout your academic journey.

# Raising Your Employability with Industry Relevance

Kaplan is committed to offering quality education through higher learning and skills development. As a result, Kaplan students will experience a holistic education with emphasis on graduate outcomes that will enhance their employability.

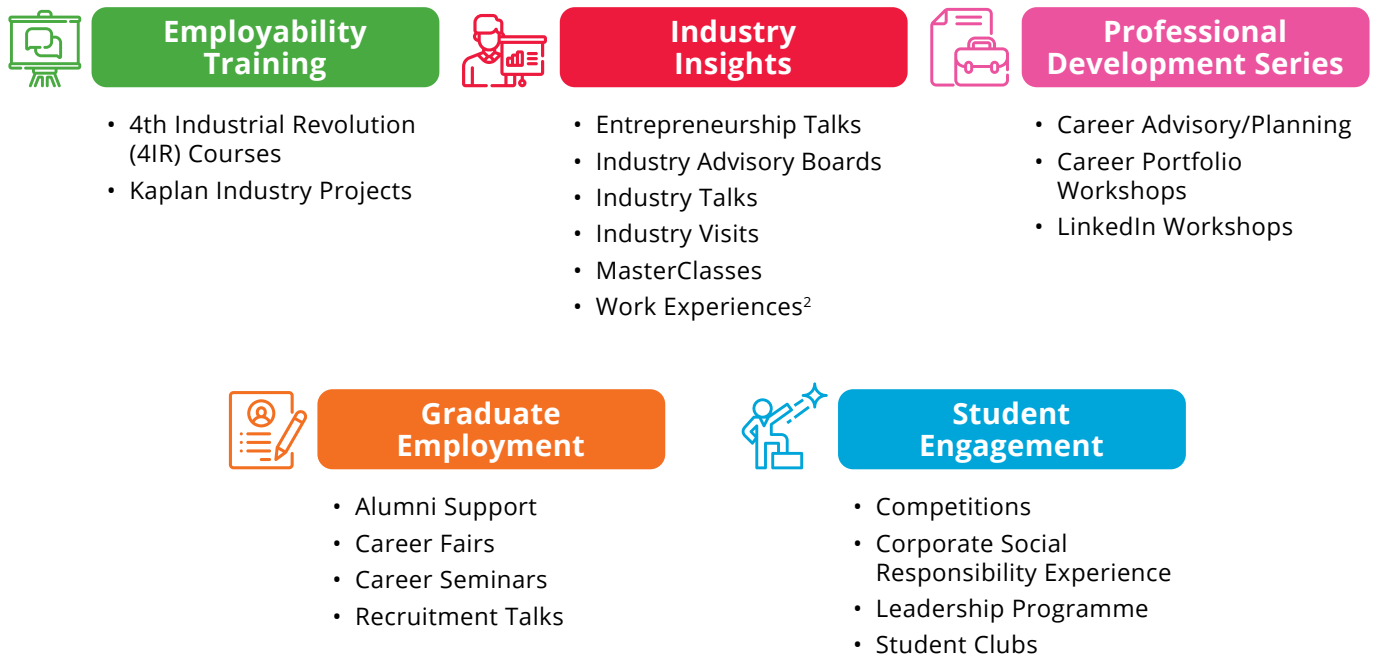

## Kaplan Industry Advisory Boards (IABs)

Our Kaplan Industry Advisory Boards, comprising industry leaders and entrepreneurs, provide industry perspectives and insights that help us ensure our curriculum is current, relevant, and robust. These, together with our enhanced employability initiatives, help us prepare our students to be industry-ready, with knowledge and key skill sets that employers are looking for in a new graduate.

## Developing Industry-Ready Talent

We have a comprehensive series of initiatives to complement our students' academic learning. Students will be guided to build their professional profile and be equipped with soft, technical, and digital skills, ready for life after graduation. These initiatives promote skills-based learning that aim to help our graduates be career and industry-ready to make an impact in the real world.

## Kaplan Employability Services

Source: Kaplan Graduate Employment Surveys 2021/22 and 2022/23

All statistics are based on the Kaplan Graduate Employment Survey 2022/23 conducted by Nexus Link Pte Ltd for graduating cohorts between September 2022 – December 2023. Respondents include full-time (FT) graduates: 441; and part-time (PT) graduates: 944. This survey is not the same survey conducted by SkillsFuture Singapore (SSG). The SSG Graduate Employment Survey may therefore not be directly comparable due to some differences in sample size scope between the two surveys. <sup>1</sup>Base: FT & PT Diploma + External Degree Programme graduates (FT & PT employed + Self-employed + Freelance + Seeking employment). <sup>2</sup>Base: FT Diploma + External Degree Programme graduates (FT employed + Self-Employed + Freelance 35 hours or above per week). <sup>3</sup>Base: FT Diploma + External Degree Programme graduates (FT & PT employed + Self-employed + Freelance + Seeking employment) who have participated in Kaplan Employability Services. <sup>4</sup>Base: PT Diploma + External Degree Programme graduates (FT employed + Self-employed + Freelance working 35 hours or more per week).

# Campuses Designed for Academic Excellence

## New Kaplan City Campus @ Odeon 333

Kaplan City Campus @ Odeon 333 is a transformative learning hub where academic excellence meets vibrant student life. From High-Capacity Computer Labs with cutting-edge hardware and an optimised inverted-U layout to The Connexion, a collaborative space for discussions and networking, every facility is designed to foster learning, collaboration, and innovation, empowering you to thrive academically while building meaningful connections.

Ensuring our holistic approach to student support, our campus features a dedicated Wellness Room, providing a serene space designed for relaxation and self-care to support students' mental and physical well-being. Additionally, our Club Room offers amenities for leisure and collaboration, where students can enjoy activities such as air hockey, darts, tabletop curling, and a gaming console.

## Kaplan City Campus @ Odeon 331

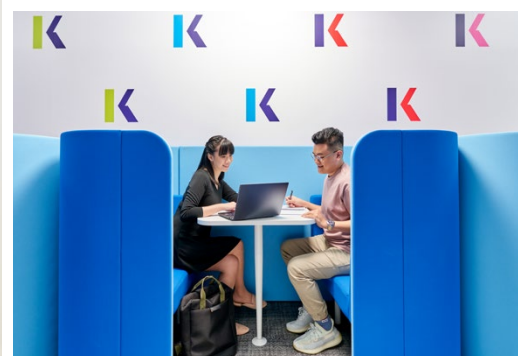

Kaplan City Campus @ Odeon 331 has been designed to create a collaborative and interactive learning and teaching environment, fitted with modern technology, innovative features, and a contemporary look. With 13 modern classrooms, study areas for over 100 students, our campus provides a conducive space for our students' academic success.

The Nexus is a collaborative space equipped with an 85-inch smart interactive touchscreen display board which offers intuitive on-screen interactions and height-adjustable tables which can flip and be used as whiteboards. The Private Online Discussion Support Stations (PODss) are similar to video teller machines, allowing students to conveniently connect with their respective programme managers without travelling between campuses.

By integrating cutting-edge technology, our campus provides top-notch facilities and resources for students, faculty, and staff.

## Kaplan Flagship Campus @ Wilkie Edge

Kaplan City Campus @ Wilkie Edge is a dynamic hub that aims to elevate the student experience, inspire learning, and foster collaboration. Spanning over three floors and featuring more than 45 classrooms, including nine computer labs, along with conducive study areas, our flagship campus is designed for collaboration and innovation.

Our Synergy Pods integrate advanced technology to create a visually stimulating, immersive, and engaging learning environment. The Study Corners at our campus are dedicated, peaceful sanctuaries where students can immerse themselves in focused research and independent study. Our spaces equip full-time students and working professionals with future-ready skill sets to excel in an evolving world.

## Bachelor of Arts (Honours) Mass Communication with Public Relations (Top-up)

### About the Programme

The Bachelor of Arts (Honours) Mass Communication with Public Relations (Top-up) Degree is an innovative media-based programme that allows you to develop specialised knowledge of the concepts, methods, practices, and theories that characterise contemporary media, communication, and cultural studies. The programme is 100% assignment-based with no examinations.

You will develop abilities, knowledge, and skills that enable you to critically evaluate contemporary mass communication and understand the political, social, and technological factors that shape those industries.

You will be assessed in a wide array of methods including blogs, essays, and presentations. The variety of assessment mechanisms will develop your ability to present your ideas in different ways, thereby becoming a flexible and dynamic thinker.

### Career Opportunities

- Communication Manager
- Communication Specialist
- Internal Communications
- Executive Journalist
- Marketing Specialist
- PR Specialist

### Delivery

Blended delivery with a mix of online and in-person sessions, supported by recordings accessible anytime, anywhere (applicable to part-time programme)

### Assessment

- 100% assignment-based curriculum with no examinations

### LEVEL 5 ENTRY

#### Programme Duration & Intakes

- Full-time/Part-time: 16 months
- May & November

### Modules

- Cinema and Society
- Cultural Identities on Screen
- Current Affairs in Public Relations
- Media Cultures
- Media Dissertation
- Media Events
- Media Industries
- Media Methodologies
- Promotional Writing
- Public Relations in Context
- Researching Audiences

## Bachelor of Arts (Honours) in Childhood and Early Years Studies (Top-up)

### About the Programme

The Bachelor of Arts (Honours) in Childhood and Early Year Studies (Top-up) is a Direct Honours Degree with dual specialisations offered by Northumbria University. The programme is 100% assignment-based with no examinations.

The Degree is designed to help you make a difference in the lives of children. You will draw upon your own experiences in engaging with contemporary issues such as children's rights, education, disability, health, poverty, and war through the analysis and examination on children's literature, film, historical documents, other mediums, research, and TV. You will also gain insights into, and knowledge and understanding of, a range of issues relating to childhood, children, young people, and society.

If you are interested in working with children, young people, and families within education, health, or social care settings, the flexibility of this programme may be just what you are looking for. It provides you with a unique opportunity to develop knowledge, insight, and understanding in two complementary subject areas whilst exploring a range of career pathways.

Note: The programme is not accredited by the Early Childhood Development Agency (ECDA). Graduates who wish to work in the local early childhood sector will need to submit an application to ECDA for Teacher Registration via a preschool. Approval by ECDA will be subjected to the applicant meeting the requirements for Teacher Registration.

### Career Opportunities

- Child Placement Caseworker
- Child & Family Services Worker
- Social Worker
- Curriculum Specialist
- Early Childhood Officer
- Family Support Worker

### Delivery

Blended delivery with a mix of online and in-person sessions, supported by recordings accessible anytime, anywhere

### Assessment

- 100% assignment-based curriculum with no examinations

### Programme Duration & Intakes

- Full-time/Part-time: 18 months
- May & November

### Modules

# Master of Business Administration (MBA)

## About the Programme

Position yourself for corporate success with a Master of Business Administration (MBA) Degree from Northumbria University.

The philosophy of the programme derives from the principles of reflective practice and experiential learning. You will engage with principles and theories of business, management, and organisation, which will provide you with frameworks for analysing, critiquing, reflecting on, and reviewing existing individual and organisational practices.

You will also develop new knowledge and skills, which will encourage enhanced and more appropriate practices. The outcome of this process will be a newfound appreciation for building strategic capabilities and understanding contemporary management and organisational issues in the context of change. The development of students as managers and leaders, to maximise the performance of the organisation, underpins this philosophy.

## Career Opportunities

- Business Analyst
- Business Development Manager
- Entrepreneur
- Finance Manager
- Human Resource Manager
- Marketing Manager
- Product Manager
- Sales Manager

## Delivery

Blended delivery with a mix of online and in-person sessions, supported by recordings accessible anytime, anywhere

## Bachelor of Science Nursing (Top-up)

### About the Programme

The Bachelor of Science Nursing (Top-up) programme is for students with a Nursing registration and a valid practising certificate, issued by the Singapore Nursing Board (SNB), wishing to advance their study from a Diploma to a Bachelor's Degree designed for post-registration nurses.

The Bachelor of Science Nursing (Top-up) programme comprises eight modules that are particularly relevant to Nursing in Singapore. These modules are Research as Evidence for Nursing Practice, Innovations in Healthcare, Teaching and Learning, Health Promotion, Healthcare Law and Ethics, Nursing Older People with Complex Needs, Health Assessment and Clinical Decision Making, and Leading and Developing Practice.

The Bachelor of Science Nursing (Top-up) programme supports the ongoing development of Registered Nurses and incorporates SNB guidance and regulations. Specifically, these are:

- Code for Nurses and Midwives (SNB, 2018a)<sup>1</sup>
- Core Competencies of Registered Nurse (SNB, 2018b)<sup>2</sup>
- Scope of Professional Nursing and Midwifery Practice (SNB, 2019a)<sup>3</sup>

In addition, the programme is designed following the Standards for Nurse Education (SNB, 2019b)<sup>1</sup> and Curriculum Requirements for Bachelor of Nursing (Post-Registration) (SNB, 2018c)<sup>2</sup> to meet the requirements of SNB, Singapore's Healthcare sector and the population.

Students who complete the Bachelor of Science Nursing (Top-up) programme will be equipped with the skills needed to strengthen the current nursing workforce in Singapore, and boost productivity and efficiency in a sector impacted by a shortage of staff. Graduates will also be well positioned to play leading roles in the evolving healthcare sector, from improving health literacy to positively impacting the community as evidence-based practitioners promoting multi-disciplinary care.

### Why Enrol in the Programme

- **Accredited by the Singapore Nursing Board (SNB)<sup>4</sup>**
- **2-weekend teaching blocks every semester**
- **Blended-learning delivery catered to Registered Nurses**
  - A balance between asynchronous and synchronous teaching and learning, between taught and tutor-guided activities, and between individual and shared learning experiences.
- **Broad range of assessments used across the curriculum such as essays, presentations, exams and Observed Structured Clinical Examinations (OSCE) to support students to maximise their potential**
- **A wide range of innovative teaching strategies are used with a focus on student interaction and engagement, such as simulation, role play, group work and interactive technologies.**
- **Curriculum designed by a team of expert nurse-educationalists from Northumbria University**
- **The learning outcomes for this programme are designed with the SNB's Core Competencies for Registered Nurse (SNB, 2018b)<sup>2</sup> in mind:**
  - Leadership and Nursing Management
  - Management of Care
  - Professional Development
  - Professional, Legal and Ethical Nursing Practice
- **Taught by qualified and registered nurses from Northumbria University**

### Programme Duration & Intakes

- Part-time: 24 months
- January & July

### Apply Online

# Postgraduate Certificate in Healthcare Management

## About the Programme

The Postgraduate Certificate in Healthcare Management programme is designed to equip students with the knowledge, understanding, and confidence they need to initiate and sustain real change within the complex and rapidly evolving Healthcare sector. It will benefit those wishing to develop existing or new roles, skills, and competencies for positions in a range of organisations within the healthcare setting. It will provide access to new perspectives on healthcare organisations, which will inform their future professional practice.

This programme will help students to develop an understanding of how healthcare organisations work and help them gain confidence to lead change in this sector, equipping them for employment in healthcare organisations such as public or government services, voluntary organisations, non-governmental organisations, and private organisations globally.

The programme provides an educational opportunity for students to develop their abilities in dealing with complex issues, demonstrating self-direction, and originality whilst continuing to advance their knowledge and understanding, and skills development. It is specifically designed to develop healthcare managers and leaders of tomorrow. Upon successful completion of the Postgraduate Certificate in Healthcare Management, students have the opportunity to continue their studies to obtain a Master of Science in Healthcare Leadership and Management.

## Delivery

Blended delivery with a mix of online and in-person sessions, supported by recordings accessible anytime, anywhere

### Assessment

- 100% assignment-based curriculum with no examinations

### Programme Duration & Intakes

- Part-time: 4 months
- February, June & October

### Modules

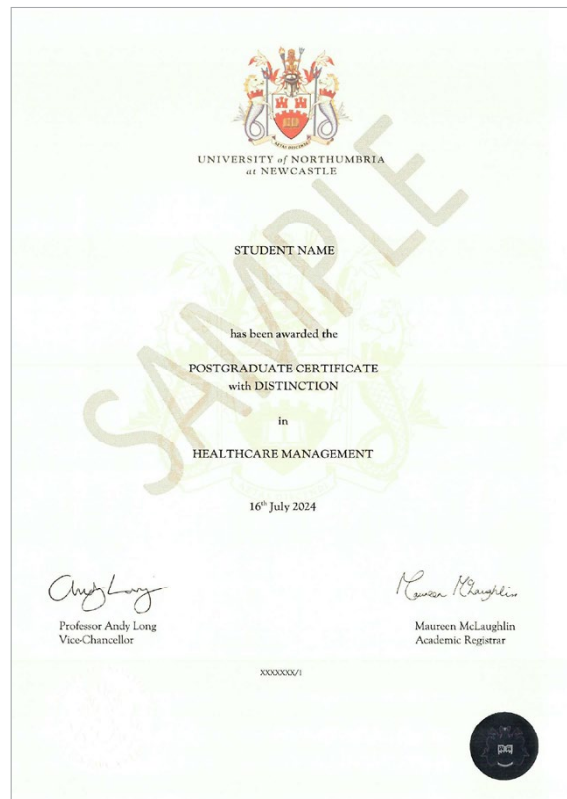

- Developing Management and Leadership Competencies in Healthcare
- Health Improvement: Behaviours, Practices, Interventions and Management
- Strategic Management of Healthcare

### Degree Awarded

Students who successfully complete and pass the modules stipulated in the programme structure will be awarded the **Postgraduate Certificate in Healthcare Management** from **Northumbria University, United Kingdom**.

The Degree will be the same as that awarded to the on-campus graduates in the United Kingdom.

# Master of Science in Healthcare Leadership and Management

## About the Programme

The Master of Science in Healthcare Leadership and Management provides you with an opportunity to gain in-depth knowledge of theory and application of healthcare management through the delivery of research-inspired teaching and learning.

Healthcare management is a rapidly growing and developing field encompassing topics ranging from change management, leadership and collaborative working in health, managing health improvement through social marketing, and the necessary competencies to lead and manage in a healthcare setting.

The programme is designed to address global needs within the Healthcare sector for committed personnel wishing to develop existing or new management and leadership competencies and skills. You will learn, as part of a multicultural student cohort, from academics who have extensive experience in practice. This will give you access to new perspectives on healthcare, which will inform your future professional practice.

## Career Opportunities

- Corporate Planning and Development Manager
- Government and Public Relations Manager
- Health and Social Services Manager
- Hospital Administrator
- Human Resources and Medical Staff Relations Manager
- Materials and Operations Manager
- Medical Records Manager
- Patient Care and Nursing Administrator

# Postgraduate Certificate in Public Health

## About the Programme

In this Postgraduate Certificate in Public Health programme, students will have the opportunity to gain the skills necessary to launch or advance their public health careers. They will join a global community of professionals working to address modern, global public health challenges.

The programme will enable students to be competent at assessing, critically applying, and synthesising contemporary public health theory, policy, and practice to provide evidence-based knowledge in the key public health areas of health improvement, epidemiology, and population health. It will enable them to apply their understanding of public health to underpin a range of interventions to improve public health outcomes, whether it be within government and non-government organisations, commissioning services, the voluntary sector, or community development.

By utilising critical appraisal and reflection, students will be encouraged to challenge their existing attitudes, beliefs, and knowledge, particularly in reference to the multi-dimensional determinants of epidemiology, health and well-being, and health improvement. They will be empowered to present and justify public health issues to their peers, and they will conceptualise and apply theoretical perspectives to complex public health practices or policies. Their career prospects will be broadened in the Public Health sector by gaining the necessary skills for professional public health practice across a broad range of settings including health promotion and improvement, policy formulation, public health intelligence, and planning population health programmes. Upon successful completion of the Postgraduate Certificate in Public Health, students have the opportunity to continue their studies to obtain a Master of Public Health (MPH).

## Delivery

Blended delivery with a mix of online and in-person sessions, supported by recordings accessible anytime, anywhere

### Assessment

Description

# Master of Public Health

## About the Programme

The Master of Public Health programme develops your skills to be adept at assessing, critically analysing, and synthesising contemporary public health theory, policy, and practice to provide evidence-based knowledge in the key public health areas of health improvement, health protection, and healthcare services. It will enable you to apply your understanding of public health to underpin a range of interventions to improve public health outcomes in practice, whether it be within commissioning services, community development in disadvantaged areas, government and non-government organisations, or the voluntary sector in disadvantaged areas. By utilising critical appraisal and reflection, you will be encouraged to challenge your existing attitudes, beliefs, and knowledge, particularly in reference to the multi-dimensional determinants of epidemiological knowledge transfer, health and well-being, and public health intelligence.

Through the critical evaluation and development of research methodologies, you will be empowered to interpret evidence, and defend and justify public health issues to both specialist and non-specialist audiences. During the programme, critical analysis of models and skills needed for leadership, management, and systems-based thinking pertaining to public health and/or healthcare-related contexts will enhance employability prospects. Through independent learning, you will conceptualise and apply theoretical perspectives to complex public health practice or policy to produce a dissertation demonstrating originality in the application and integration of new and existing knowledge, which is potentially transferable within different public health contexts.

## Career Opportunities

- Biostatistician
- Community Health and Development Manager
- Epidemiologist
- Health Promotion Manager
- Healthcare Policy Specialist
- Population Health Manager

## Success Stories

I decided to further my studies by pursuing the Bachelor of Science Nursing (Top-up) programme to enhance my career prospects and provide my patients with better knowledge and care. Modules such as 'Research as Evidence for Nursing Practice' and 'Leading and Developing Practice' have deepened my understanding of nursing theories, practices, and research, enabling me to deliver high-quality, patient-centred care.

The programme has sharpened my critical thinking and problem-solving skills, allowing me to handle difficult situations with greater tact and deliver more effective care. In particular, the 'Research as Evidence for Nursing Practice' module introduced me to evidence-based practices and taught me to apply research findings in my clinical work.

My lecturers have been incredibly motivating throughout my journey, constantly ensuring that we understood what was taught. They are approachable, and no matter how many questions we ask, they always address our queries with patience and a smile. I would recommend this programme from Northumbria University as the lessons are conducted in a conducive learning environment with friendly, knowledgeable lecturers who are always willing to help.

**Chitra D/O Kumarasamy**

Senior Registered Nurse, Home Nursing Foundation  
Bachelor of Science Nursing  
Northumbria University Student (2024)

It has always been a personal goal of mine to complete my Degree, but due to family commitments, I kept putting it off. Now that my children are older and more independent, my desire to pursue higher education has been reignited.

After researching various programmes, I found Northumbria University's schedule to be the most suitable for my needs as a working nurse, while giving me ample time to prepare for my assignments. This programme has been instrumental in my growth as a nurse. Previously, I would share information with patients and their families based on general understanding or hearsay. Now with the knowledge I have gained, I can confidently provide evidence-based explanations, enhancing the level of care I offer.

I have recommended this programme to my friends as pursuing this Degree is not only a professional stepping stone but also a personal achievement which I have longed for. The lecturers are exceptional in preparing us for the lesson and upcoming assignments while being engaging and making learning fun.

**Janet Tan Suan Neo**

Senior Staff Nurse, Home Nursing Foundation  
Bachelor of Science Nursing  
Northumbria University Student (2024)

## Success Stories

Pursuing further studies has significantly enhanced my skills and analytical thinking abilities, opening up new opportunities for career development. Pursuing this Nursing Degree has taught me to apply critical thinking in my work environment, connecting procedures to research papers for evidence-based support.

The lecturers at Northumbria University (NU) are incredibly approachable and always ready to guide us whenever we have doubts. I particularly appreciate how the programme's structure accommodates the demands of working professionals balancing both work and studies, and I would definitely recommend this Nursing Degree to others.

My academic journey with NU at Kaplan has been smooth from the beginning, and I am very satisfied with my decision to choose NU for my further studies.

**Nurul Nabilah Binte Mohamed Roslan**

Registered Nurse, Mount Elizabeth Hospital Orchard  
Bachelor of Science Nursing  
Northumbria University Student (2024)

I embarked on further studies to enhance my career prospects and stay competitive in today's job market. As a Key Account Manager overseeing top key sellers on an e-commerce platform, I manage various logistical aspects involved in transporting goods from one place to another.

My Degree has given me a thorough understanding of supply chain flow and structure, enabling me to effectively communicate with external courier and transport companies, and resolve operational issues for key sellers. Several ideas I've implemented at my organisation to improve the movement of goods were inspired by insights gained from my studies.

Balancing full-time work and studying can be challenging due to time and family commitments. However, as the programme is 100% assignment-based, it alleviates the stress associated with exams. Despite the demands and rigour, I was able to complete assignments at my own pace, while managing my schedule effectively to spend quality time with loved ones.

Upon completing my studies, I received a salary increase on top of the opportunity to build valuable connections with classmates from diverse backgrounds. I would definitely recommend this programme from Northumbria University at Kaplan.

**Vienotharan Chandra Mohan**

Key Account Manager, Retail Industry  
Bachelor of Science (Honours) Global Business Management (Logistics and Supply Chain)  
Northumbria University Graduate (2024)

## Success Stories

As a working professional, I decided to pursue further studies to enhance my competitiveness in today's dynamic job market. Having an additional qualification has equipped me to navigate the ever-changing Business and Finance sector, allowing me to grow within my organisation.

Moreover, pursuing this Degree from Northumbria University provided me with an excellent opportunity to expand my network. The supportive lecturers made my study journey as a working adult remarkably smooth. For anyone considering further studies to improve themselves, I wholeheartedly recommend this programme.

Upon completing my studies, I gained recognition for my achievements and secured an enhanced role within my organisation.

### **Lim Yan Loong**

Associate (Onboarding Risk), Financial Service Provider  
Bachelor of Arts (Honours) Business\*  
Northumbria University Graduate (2024)

*\*This programme has been succeeded by the Bachelor of Science (Honours) Global Business Management.*

The pursuit of Nursing is a perpetual journey of knowledge acquisition and skills development that offers vast learning opportunities. In the field of Nursing, where every certificate of academic achievement is a stepping stone for career advancement, it is imperative that I remain committed to the continuous enhancement of my skills and knowledge.

This Nursing Degree from Northumbria University at Kaplan has improved my understanding of patient care, honed my technical skills, and strengthened my leadership abilities. For example, the "Healthcare Law & Ethics" module has equipped me with the ability to navigate complex ethical dilemmas in healthcare, ensuring that I prioritise patient welfare and autonomy in my professional decisions.

I found the Bachelor of Science Nursing Degree offered by Northumbria University at Kaplan a compelling choice for those seeking to advance their Nursing education due to its flexible study schedule, comprehensive curriculum and reasonable programme fees. With a supportive and stimulating environment, spearheaded by inspiring lecturers, my academic journey at Kaplan has been truly enriching and transformative. In addition to enhancing my knowledge and skills, this programme boosted my confidence, which has been instrumental in improving my job performance and paving the way for opportunities that lie ahead in my Nursing career.

### **Nur Afrah Binte Mohamed**

Senior Staff Nurse, Khoo Teck Phuat Hospital  
Bachelor of Science Nursing  
Northumbria University Student (2024)

## Success Stories

In order to upgrade myself and advance my career, I decided to further my studies with the Bachelor of Arts (Honours) in Business with Logistics and Supply Chain Management (Top-up) programme. Through modules such as Applied Logistics and Supply Chain Management, Strategic Supply Chain Management and Supply Networks, I was able to gain an in-depth understanding of logistics and supply chain management.

This Degree programme may be completed in 16 months, a comfortable duration which allows me to study at my own pace while working. With this Bachelor's Degree, I feel more confident at work as I am able to better understand my job scope and the demands to be met. In addition, I was given the opportunity to progress in my career by taking on more responsibilities after attaining my Degree.

I would definitely recommend Northumbria University. In fact, one of my friends is already studying here and she is enjoying it!

### **Mok Jia Yin**

Supply Chain Specialist, Government Agency  
Bachelor of Arts (Honours) in Business with Logistics and Supply Chain Management  
Northumbria University Graduate (2023)

I previously worked in sales before joining the People's Association. I then decided to pursue a Degree in Guidance and Counselling to enhance my career and improve my conversation skills for me to guide and counsel others more confidently and professionally.

By applying the knowledge that I have gained from the programme, I am now able to counsel individuals across different levels. I am also able to efficiently collaborate with my colleagues and stakeholders to serve the community more effectively. The Mending the Gap: Collaborative Learning with Service Users module was applicable in terms of helping me bridge the gap between people. By learning and applying techniques that I have learnt, the community would feel more comfortable sharing their concerns with me.

I will recommend this Degree programme as it can be completed in 18 months on a part-time basis and is suitable for people holding a full-time job in the day. During my course of study, I was even promoted from Assistant Manager to Manager.

### **Manson Ng Kok Hwee**

Community Engagement Manager, People's Association  
Bachelor of Arts (Honours) in Guidance and Counselling  
Northumbria University Graduate (2023)

## Success Stories

I felt lost in 2020, about to turn 40 in a couple of years and unsure if I should switch to a career in Logistics. I had heard that the logistics sector is fast paced, where there are limited opportunities given my age and lack of experience. At the same time, I did not see myself being able to further progress in my then-career in engineering.

Amid the COVID-19 pandemic restrictions, I saw studying at Northumbria University as an opportunity. Based on the number of modules I needed to take, the duration of the programme seemed manageable. Furthermore, my friends, who had also graduated from this programme, had shared very positive feedback. Hence, I decided to begin my learning journey with Northumbria University at Kaplan.

The programme offered modules that allowed us to study about global logistics companies and how their operations changed due to the macro environment, and the modules were helpful for those finding a foothold in the logistics and supply chain management industry or those who want to learn more about the industry.

Not only was the curriculum fully assignment-based, but we could also ask questions about the assignment or seek clarification on the lesson. Although I had no prior background in this industry, the lecturers were supportive and helpful, and they were always willing to answer all my questions.

Through this programme and the attainment of my Degree, I have successfully transitioned into a new career as a Maintenance, Repair and Operations (MRO) Procurement Leader at Safran Helicopter Engines Asia.

**Ong Chee Siang**

MRO Procurement Leader, Safran Helicopter Engines Asia Pte Ltd

Bachelor of Arts (Honours) in Business with Logistics and Supply Chain Management

Northumbria University Graduate (2022)

## Success Stories

When I entered the workforce, I was young and did not have many qualifications. As I continued working, I realised the importance of having proper qualifications to progress at work. Furthermore, I wanted to do something more meaningful and helpful to others.

Hence, I decided to pursue a Bachelor of Arts (Honours) in Guidance and Counselling at Northumbria University. As I am responsible for assisting clients in achieving a better quality of life, I found what I had learnt from my Degree programme can be applied when meeting my clients.

This Degree programme not only boosts my confidence and self-esteem at work, but also provided me with a sense of achievement. My achievement was validated when I got promoted from Programme Officer to Programme Executive.

I would definitely recommend Northumbria University as it takes only 18 months to attain a Degree. Moreover, the lecturers are very engaging, and they are willing to guide us whenever we need help.

### **Desmond Yim Guo Hao**

Programme Executive, Fei Yue Community Services  
Bachelor of Arts (Honours) in Guidance and Counselling  
Northumbria University Graduate (2022)

I had worked full-time at the Thye Hua Kwan Moral Charities Senior Activity Centre for three years and recently started working as a Programmes Executive at YWCA. Here, I aim to equip young women and mothers from marginalised backgrounds with work skills to improve their lives through employability.

I find it meaningful to work with the elderly and devise interventions to help with their gradual memory impairment and physical limitations. I am also passionate about reaching out to people in difficult situations and making a difference in their lives. These reasons motivated me to pursue my education with Kaplan, first with a Foundation Diploma, followed by the Diploma in Psychology. This then gave me exemptions to pursue my Bachelor's Degree with Northumbria University, where I chose to study the Bachelor of Arts in Guidance and Counselling.

The Degree is well-suited to my goal of becoming an asset to organisations that strive to improve the welfare of those in need. Northumbria University is well-recognised for its outstanding teaching, so I feel confident about achieving my Degree here. The lecturers, who are experts in their respective professional fields, also share their experiences and knowledge with us. The programme may serve as a stepping-stone for those who aspire to expand their career opportunities in the sector and work with people from diverse backgrounds. All the modules covered have been comprehensive and applicable to my job scope. After I have completed the programme, I plan to further my education with a Master's Degree in order to be empowered to care for and understand how to work with people from diverse backgrounds.

Bachelor of Arts (Honours) in Guidance and Counselling  
Northumbria University Student (2021)

## Success Stories

Attaining a Degree has always been a personal goal of mine and achieving it has proven my capabilities. It has served as a ticket to job interviews and opportunities for career advancement. As my Diploma was in Legal Studies, it meant that I had no business-related background. Knowing that attaining a Bachelor of Arts in Business Management would add value to my portfolio, I chose a University with modules with real-world practicality.

Northumbria University was my choice as it is well-established and recognised worldwide, holds the Dual AACSB Accreditation and offers a Direct Honours Business Degree.

Through this journey, I learnt the important life skill of time management, as I had to manage my full-time job while attending classes at night and on the weekends.

I stand by the belief that the decisions I make today will determine the direction of my life tomorrow. Even though the journey was not smooth sailing, the support given by the University was immense and I am proud to have completed my programme with First Class Honours.

### **Francesa Laurretta Aw**

Investigator, Amazon Asia-Pacific Holdings Pte Ltd  
Bachelor of Arts (Honours) in Business Management  
Northumbria University 1<sup>st</sup> Class Honours Graduate (2021)

I was driven to pursue an MBA as I felt stagnant in terms of my level of knowledge and desired a breakthrough in terms of my professional network. The in-depth and stringent MBA programme broadened my knowledge in managing the business with a practical approach, allowing us to apply knowledge learned through the assignments.

Networking is the best part about taking up an MBA. In my cohort, there was a surgeon from a public hospital and there were many students in senior positions in large companies from various fields. This helped me to grow my connections.

My advice to those who are thinking of taking up an MBA is: Don't think, just do. Taking up an MBA is not just a career-propelling act, but it has taught me to prioritise the things I do daily while advancing my knowledge and challenging what I thought I knew, having managed a business for a decade. Furthermore, have an open mind and practice good time management while learning, re-learning and challenging yourself to greater heights.

With a growing percentage of the population holding at least a Bachelor's Degree, it is imperative to have an MBA to stand out among your peers. From middle management executives to busy business owners like myself, taking the time and effort to achieve an MBA qualification will bring you a new skill set and mindset.

### **Neo John Ji**

Managing Director, Kodi Engineering Services Pte Ltd  
Master of Business Administration (MBA)  
Northumbria University Graduate (2021)

## Success Stories

What drove me to pursue my MBA was the desire to gain new knowledge and learnings that are relevant to my current job.

The modules covered were very relevant and were the most beneficial part of the programme to me, and they helped me gain the knowledge necessary to lead my business. The programme allowed me to apply what I had learned in real work situations, such as in managing people, financial management and strategy planning.

Furthermore, there was the opportunity to learn through group discussions and research work. As part of my assignment in the Leader Identity and Leadership module, I had the opportunity to interview a leader to understand his challenges and analyse his leadership style. Through this, I could reflect on my own leadership style.

My advice to those thinking of pursuing an MBA is to be mentally prepared that the end goal is not just the certificate, but the opportunity to expand one's learnings and business knowledge through classes, study groups and research. Networking is certainly the best part about taking up an MBA programme. I had a regular study group where we met up regularly to catch up about work, apart from discussing assignments.

**Lee Ang Seng**

Managing Director, Beca Carter Hollings & Ferner (S.E. Asia) Pte Ltd  
Master of Business Administration (MBA)  
Northumbria University Graduate (2021)

## Graduation

Students who successfully complete and pass the modules stipulated in the Bachelor's Degree programme structure will be awarded the Bachelor of Arts (Honours) or Bachelor of Science (Honours) from Northumbria University. Graduates will be allowed to use the title BA (Hons) or BSc (Hons) after their names. The Degree awarded will be the same as that awarded to the on-campus graduates. Honours will be awarded based on the overall average grade of all modules combined in accordance with the University programme regulations.

Similarly, students who successfully complete and pass the modules stipulated in the Master's Degree programme structure will be awarded the Master of Business Administration, Master of Public Health or Master of Science in Healthcare Leadership and Management from Northumbria University. Graduates will be allowed to use the title MBA, MPH, or MSc after their names.

## Career Fair

The annual Kaplan Career Fair is the biggest employment event held on campus. The Fair offers an opportunity for students to meet potential employers face-to-face, and learn about career paths and job opportunities available to them throughout their programme and in the future. Students can enhance their employability and hone their resume writing and interview skills through career coaching workshops.

# Application & Fees Schedule

## Fees Schedule
